Process

1. It all starts with an idea! Silver Oaks will work with you to turn that idea into reality. A kick-off meeting with our corporate team will get the ball rolling to define initial concepts.

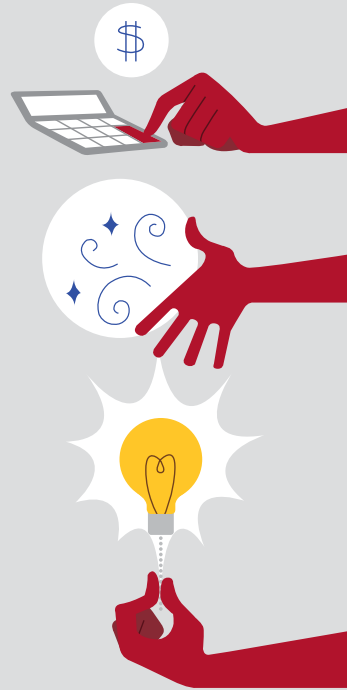

2. Time to crunch numbers! The project manager will work with our team to develop a comprehensive estimate for your review.

3. Getting organized! Once the estimate is approved, the project manager will work with you to gather and organize content.

4. Let the fun begin! Your project will begin taking shape in the capable hands of our creative team! You'll see it come to life during every review milestone.

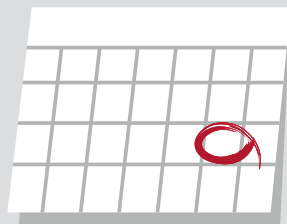

5. Your feedback is valuable! Communication is key – we want to work as an extension of your team. With each review, we will tweak accordingly.

6. Ta Da! Your idea becomes a reality! Once we have your final approval, your product will be sent and ready for use.

Content

We recognize that you are the expert in your field, and it's our job to bring your vision to life. We'll look to you to provide us as much ready-to-use content as available – images, footage, narratives, etc. However, we are happy to step in to research and create custom content where needed.

Schedule

We know the importance of deadlines. To make sure your project is completed on time, everything will revolve around a detailed timeline that outlines the deliverables and expectations for both our team and yours – including content development, production, testing, revisions, and approvals.

Cost

Each of our projects are customized to meet the needs of your visitors AND your budget. We'll work with you to come up with solutions that are just right for you!
